

Hi, My name is Jeremy Howins and I recently purchased a home this year and became a Fallbrook resident. We absolutely love the community and want it to stay rural as possible. My question is, we live on E. Mission rd and Hamilton rd area and the excessive speeding traffic is insane. We can barely pull out on Mission without being hit. There has been multiple accidents here including a fatality down the road. Posted signs say radar enforced area which we've never seen any law enforcement doing anything to enforce the high speed unsafe motorists. What can be done from your committee about traffic safety on this stretch of road before we are struck by one of the reckless speeding motorist?

Best Regards,

Jeremy
